

## "Hatirjheel: Dream Begins"

# The First Bangladeshi Computer video Game series

April 1, 2014 | Business desk

It is hard to find someone in Dhaka who is yet to visit Hatirjheel! In fact, not only those in Dhaka city; people from the distant corners of our country come to visit the Hatirjheel Lake. We look at Hatirjheel with pride and radiance. Hatirjheel has become a place to relax and it is synonymous with the fulfillment of our dream – the very name inspires people to dream big. People have been thinking: if we can make Hatirjheel with our own technology and expertise, we can make even bigger things. A team of young professionals shares such a dream to create a ground-breaking computer game. As in elsewhere, a huge number of children in our country are growing up playing foreign computer games such as “Angry Bird”, “Doom”, “Battle Field” or watching foreign cartoons - “Doraemon”, “Mickey Mouse”, “Tom & Jerry” to name a few. However, computer game is not merely a game for kids but for the adults alike. Keeping this reality in mind and inspired by Hatirjheel, this young talented team of MassiveStar Studio Ltd. has been working relentlessly to rewrite the history of Bangladeshi computer game landscape. They have created a computer game series named “Hatirjheel: Dream Begins” to be a catalyst for other dreamers. The objective of this game is to uphold and promote our unique culture, literature, and environment in a virtual reality medium to the young generation, using the iconic Hatirjheel as a backdrop. This game is launched officially at 24th March with the association of ICT Ministry

where Mr. Zunaid Ahmed Palak MP, State Minister of ICT Ministry, Govt. of Peoples Republic of Bangladesh had played the role as Chief Guest. Besides, Mr. Shameem Ahsan, President of BASIS and Mr. Mozammel Babu, Chief Editor & MD of Ekattor TV was present as Special Guest. Mr. Mahbub Zaman, Ex. President of BASIS; Mr. Wong, Project Director, “We Make Games”; Mr. Gousul Alam Shaon, Managing Director of Grey spoken out as Special Speaker.
